

WORKSHOP ON SCIENTIFIC WRITING SKILLS TO NEWLY RECRUITED ACADEMIC STAFF OF THE UNIVERSITY OF DODOMA (UDOM)

Introduction

The UDOM INASP Scientific Writing Workshop is one among AuthorAID embedding activities that aims to embed knowledge of writing and developing quality research proposals and scientific research papers.

Participants of the research writing workshop at UDOM

Training outcomes

Key outcomes and achievements from the training activities:

- Research writing capacity raised for Junior Academic Staff*
- Increased production of Fundable Research Proposals from Junior Academic Staff*
- Improved publications output*

Key lessons learnt

- Academic Staff show more enthusiasm when the activity is an AuthorAID embedding activity*
- There is very high demand compared to the number of AuthorAID embedding activities that can be done in a year*

Future plans

- Planning to include development of skills to communicate research findings for Publication in International Journals*
- Also planning to conduct more workshops in capacity development in research writing*
